```
'TEST SETUP =====
'Test Description
    Bursty Writes for 40 sec followed by Constant Writes for 80 secs - 4 Cycles
'Run Time
'    hours      minutes      seconds
'    0          0            40
'Ramp Up Time (s)
    0
'Default Disk Workers to Spawn
    NUMBER_OF_CPUS
'Default Network Workers to Spawn
    0
'Record Results
    ALL
'Worker Cycling
'    start      step      step type
'    1          1          LINEAR
'Disk Cycling
'    start      step      step type
'    1          1          LINEAR
'Queue Depth Cycling
'    start      end        step      step type
'    1          32       2         EXPONENTIAL
'Test Type
    NORMAL
'END test setup
